

# *¡Welcome to Bloved Veggie Corner!*

Bloved Veggie Corner has become a benchmark for vegan and vegetarian food lovers in the capital.

And no wonder: its original and very complete proposal, full of surprises, combines not only new and extraordinary flavours, but also dishes that dignify responsible consumption and embrace local cuisine and concern and respect for the environment.

Our passion for cooking and for organic and top quality products, such as organic vegetables from the Huerta de Bustarviejo, make Bloved Veggie Corner the perfect place to fall in love with respectful, diverse, interesting and fun gastronomy.

The Hostelco award for 'Best Restaurant Concept' for this menu backs us up, as do the opinions of hundreds of diners. But we want you, in first person, to discover the wonders of this veggie corner.
